Dear Delegate,

Welcome to the 18th Master Investor Show.

As investors, we've all heard the saying that there's no such thing as a "free lunch". Well, the Master Investor Show is probably the closest you're going to come to enjoying one. Yet again, we offer you a broad selection of companies and speakers to whet your investing appetite.

As you'll probably have noticed, things are a little different this year. Due to COVID-19 restrictions, the Master Investor Show is going virtual, but we've pulled out all the stops to make sure your day is as close to the experience of our physical event as possible.

This year's highlights include:

• No less than 18 presentations in the Main Stage Auditorium, taking you on a whirlwind tour of cutting-edge investment themes from around the world. This year's speakers include representatives from Baillie Gifford, JPMorgan, Polar Capital, BlackRock, Allianz Global Investors, Aberdeen Standard Investments, Oakley Capital, Pantheon International, Harbourvest, WiseAlpha, Netwealth, QuotedData and of course our very own Jim Mellon and Evil Knievil.

• A diverse range of exhibiting companies and organisations, covering a broad range of sectors and industries. Interact virtually with exhibitors via the "Chat" function or arrange a time for a video call to fit in with your viewing schedule.

• A variety of presentations via our "On-Demand" feature. This year's speakers include Lord Lee of Trafford, the UK's first ISA millionaire and Member of the House of Lords; Nick Train, manager of the Finsbury Growth & Income Trust; David Paul, Managing Director, VectorVest UK; Claire Noyce, CEO Hybridan Stockbrokers; Iona Bain, award-winning financial journalist; Jennifer Kempson, award-winning finance and prosperity educator and blogger; and economist James Ferguson – among many others.

As investors we're all looking for an "edge" in the markets. Today's event is your opportunity to pick the brains of some of the smartest investors and executives from around the world. All of them are going to cover topics and investment opportunities that are immediately relevant to private investors.

After a dizzying rollercoaster ride of a year for investors, getting a sense of perspective is more important than ever. We can't claim to have all the answers, but perhaps together we can start asking the right questions that will set us in good stead to manage our portfolios to prosperity in 2021 and beyond.

This programme is here to guide you through what promises to be a very busy and entertaining couple of days. Also, I strongly recommend a visit to our "Prize Centre" where you can give yourself a chance of winning some pretty snazzy prizes including Apple Watches, iPads and even a signed copy of Jim Mellon's latest book, Moo's Law. Imagine putting those in your Christmas stocking this year!

The entire team at Master Investor wishes you an interesting, enjoyable and – above all – profitable day.

Best regards

James Faulkner
Editor in Chief, Master Investor

KINETA, INC. – DEVELOPING NOVEL IMMUNOTHERAPIES TO TRANSFORM PATIENTS' LIVES

Kineta, Inc.

Dr. Shawn Iadonato serves as Kineta's Chief Executive Officer. He has nearly twenty years of experience leading startup biotech companies. Dr. Iadonato is a co-founder of Kineta and initially served as Chief Scientific Officer. Under his leadership at Kineta, the company established a proprietary screening platform for identifying small molecule innate immune modulators and has advanced novel drug programs in immuno-oncology, neuroscience and biodefense. The company also established strategic partnerships with Pfizer, Genentech and the Wellcome Trust.

Prior to founding Kineta, Dr. Iadonato co-founded and served as CSO of Illumigen Biosciences, Inc. At Illumigen Biosciences, he pioneered a patented drug discovery platform which relied upon recruitment and screening of healthy populations and elucidation of their shared "wellness" genes. Dr. Iadonato also led the successful discovery and preclinical development of Illumigen's anti-hepatitis C drug, which ultimately led to the sale of the company to Cubist Pharmaceuticals (now part of Merck & Co.) in 2007. Before Illumigen, Dr. Iadonato managed the Human Genome Center at the University of Washington. He is co-inventor on more than 35 U.S. patents or patent applications. He is Principal Investigator or co-Investigator on numerous government grants and contracts. Dr. Iadonato received a PhD in Genetics from the University of Washington and is a graduate of the University of Pennsylvania.

INTRODUCTION TO INVESTING WITH LADIES FINANCE CLUB UK

Ladies Finance Club

After 8 years as a financial adviser, I realised that most households, no matter what their income, face very similar dilemmas when it comes to money. The motivation to set up Miss Lolly came when I fell pregnant and started to think more seriously about my own financial future. I realised how lucky I am to have the knowledge and tools to put in place everything I need to ensure that my new family will be financially secure. I also noticed that a few hints and tips are all most clients need to restore their confidence to tackle their day to day finances by themselves. When helping clients with their financial foundations, I was being asked very similar questions, so thought it would be useful to share how I help them.

By day I work at a wealth management firm in the City of London. I am a Chartered Financial Adviser and also a Fellow of the Personal Finance Society (PFS). This is the highest qualification a financial adviser can hold and less than 2% of PFS members have reached this. I am also a member of MENSA – the high IQ Society with an IQ of 148.

David Paul

VectorVest UK

David Paul has been trading in the financial markets since 1982 and as a self-supporting trader since 1988. He is a qualified Mechanical Engineer with a PhD in applied Mathematics.
His first job after University was with mining firm Anglo and was Head of Research for an Anglo subsidiary named Boart International prior to becoming a full time trader. In 1990 he began to move from unleveraged share trading to short term leveraged trading of the Ft100 contract and in the last 10 years to trading in the Foreign Exchange markets. His plan is to make cash from short term trading and to invest that cash in companies that are growing earnings both aggressively and safely. It's the same model that Soros used in the Quantum Fund. In 1992 after speaking at an investment club he was asked to train a group of traders and this lead to a second career as a trading coach and mentor. Over the last 20 plus years he has done seminars in trading of stocks, futures and Forex all over the world. These seminars have been conducted at both retail and institutional level. In 2008 along with Tom Hougaard he started WhichWayToday. The company gives real

time calls in stock indices and Forex markets. He still trades there and lends a hand when the full time traders needs a break. While in London during 2010 trading at Whichwaytoday he discovered the power of the VectorVest stock market trading program. He started there as a customer but became so happy with the product that he is, at the time of writing, the MD of VectorVest UK and VectorVest SA. He continues to trade short term for cash and to bank that cash into more solid longer term UK shares for both growth and dividend income using the VectorVest methodology.

Stephen or Steve is the founder of Behind the Balance Sheet (https://behindthebalancesheet.com), an investment research and training consultancy, which produces bespoke research and runs training courses for a select group of institutional clients. Steve's Forensic Accounting Training Programme launched in June 2018, and in its first two years some 300 professional investment analysts and portfolio managers at some of the biggest funds in the UK took the course, which has been enthusiastically received. The course is unusual in that it looks at the issue of financial manipulation from a practitioner's perspective, and has over 150 real life examples of accounting chicanery from around the world.

Steve spent some 20 years as an equity analyst at different investment banks, covering various sectors, and was consistently rated in the top 10 in his sector in Extel, II and Reuters surveys. He moved to the buy-side in 2005 and was a partner and head of research at two multi-billion dollar hedge funds; he specialised in using a deep dive research approach to identify special situation opportunities.

Steve trained as an accountant and lives in London; he enjoys reading, yoga, and skiing and is interested in investment theory, wine and classic cars. He is regularly featured in the press, including the Financial Times, the Times, Sunday Times, Telegraph and City AM. Steve also frequently appears on podcasts, including Bloomberg Odd Lots and the Acquirer's Podcast as well as on the Today programme on BBC Radio 4 and on Real Vision, talking about accounting issues at quoted companies. His book, The Smart Money Method, outlines his research process and is published on November 24.

Deutsche Börse Cash Market
We make cash markets work

Deutsche Börse Group has concentrated all its cash market activities in Deutsche Börse Cash Market. It organises one of the leading cash markets in Europe and offers companies, brokers and investors access to the German and international capital markets.

Our product portfolio and services cover the admission of securities to trading – according to recognised rules and in customised markets. In the form of Xetra® and Börse Frankfurt (Frankfurt Stock Exchange) we operate two of the world's most renowned trading platforms where prices are determined on the exchange and, thanks to the Central Counter Party (CCP), with minimum default risk for stock and bond transactions.

Capital seeking companies are offered financing alternatives. When raising equity capital through shares, companies can choose to be listed in one of the three clearly structured segments: Prime Standard, General Standard and Scale. For raising debt capital through issuing corporate bonds you can choose between Scale for corporate bonds or Prime Standard for corporate bonds. Deutsche Börse Cash Market is an important interface between issuers and the capital market. Its IPO & IR services accompany firms before, during and after their IPO. Besides, companies are also offered professional expertises by Deutsche Börse Capital Market Partner.

Deutsche Börse Cash Market champions regulated and transparent markets that enable efficient, safe and fair securities trading. We provide solutions for efficiently raising and allocating capital, in this way laying important foundations for the real economy. Through this commitment, we make a valuable contribution to ensuring the exchanges fulfil their macroeconomic role.

SHARESOC
UK INDIVIDUAL SHAREHOLDERS SOCIETY

ShareSoc is a not-for-profit membership organisation, created by and for individual investors. Our aims are to help improve your investment experience and to represent your interests wherever this is needed.

To do this, we offer a range of educational and informational services, and represent your interests to government. We also offer assistance to shareholders when companies they invest in misbehave and do not act in shareholders' best interests. It is only by joining together that we can campaign effectively on such matters. We want to ensure that shareholders have their proper say as owners of the businesses in which they invest.

Our services include: in-depth company reports, meetings with quoted companies, educational resources and networking opportunities with other investors. We also provide forums for the interchange of views between individual investors.
