SPEAKING AT MASTER INVESTOR

Being on stage allows you to tell your story in a focussed way to those investors who are most interested in your company.

Combining an all-day stand presence with a speaking slot is a powerful way to get your message out to our audience of high net worth individuals, private investors, brokers and analysts. Here is how a speaking slot helps you to maximise your exposure:

A speaking slot automatically increases the interest of the audience in your company. All speaking sessions are advertised extensively in the online and email campaigns ahead of the show. They are also advertised on the day, featuring in the Show Guide, across event signage, and through direct reference from the event's comperes across our three stages. Quite simply, a speaking slot acts as a catalyst to increasing people flow to your stand.

The ever-popular speaking slots of 10 minutes each will give you the opportunity to speak to investors and maximise the attention you generate for your company and the number of new investor leads you generate on the day. Dedicated Master Investor social media staff will be on the site to increase social media exposure for all speakers on the day.

Please note, these speaking slots can only be acquired in conjunction with an Exhibition Stand Package. See price list for further details.

The speaking slots are strictly limited and will be allocated on a first come first served basis. Book early to avoid disappointment.
